

REMARKS

Claims 1-4, 19 and 21-26 are pending in this application. By this Amendment, claim 2 is amended and claim 26 is added. No new matter is added.

Claim 2 is amended to more clearly recite the claimed subject matter. New dependent claim 26 further defines the claimed subject matter to include determining audience target areas, determining, for each transducer, delays for the carrier signal and each of the encoded side band signals; combining, for each transducer, the corresponding delayed carrier and encoded side band signals. These features further define the process of creating the plurality of wavelets that interact to produce the two or more hypersonic beams.

It is respectfully submitted that this application is in condition for allowance. Favorable reconsideration is earnestly solicited.

Should the Examiner believe that anything further would be desirable in order to place this application in even better condition for allowance, the Examiner is invited to contact the undersigned at the telephone number set forth below.

Respectfully submitted,
